

SRED

SHIFT4 P2PE DEVICE: ID TECH SecuRED™

Shift4 is proud to support True P2PE® with the ID TECH SecuRED™. Together with our TrueTokenization® and proper implementation, True P2PE can greatly reduce your PCI burden and your risk of a data breach. The SecuRED is a secure, PCI-certified magnetic swipe reader. It is versatile enough to be used in a variety of merchant environments, including mobile points of sale.

- Magnetic Swipe Reader
- USB Connectivity
- Reads 3 Tracks of Data
- Bi-Directional Card Reading Capability
- Powered Through USB Port
- Supports Shift4's True P2PE®
- Supports Shift4's VT4® Web App
- SRED (Secure Reading and Exchange of Data) Compliant with Enclosure

HOW TO ORDER:

1. Choose the Shift4-certified device that best suits the merchant's needs and works with their POS.
2. Select a Shift4-approved distributor on the next page to inject the Shift4 keys, then place the order.
3. Install the configured devices and contact Shift4 to go live with processing P2PE-secured payments.

*Best Practice: Deploy an equal number of devices with each Shift4 P2PE key available for reduced risk and higher availability.

*Important: There has been some confusion around the Shift4 configuration process regarding the requirement of a PIN encryption key, even if debit is not being utilized. Shift4 recommends that each Shift4 device being shipped automatically include a PIN encryption key along with the Shift4 P2PE key. If this is not included, there is a possibility that the devices will have to be returned for a PIN injection to utilize EMV functionality with Shift4. It is in the merchant's best interest to have an EMV PIN encryption key injected with the Shift4 P2PE key to avoid having to send the devices back and ensure they have the highest available liability protection in the eventual case of Chip+PIN.

If you have questions about any part of the process or are unsure who to order devices from, we are here to help guide you. Contact our 24/7/365 Customer Support team at support@shift4.com or 888.276.2108.
