

## EMV PIN PAD

## SHIFT4 P2PE DEVICE: Ingenico iPP350

Shift4 is proud to support True P2PE® with the Ingenico iPP350 terminal. When properly implemented alongside our TrueTokenization® solution, True P2PE can greatly reduce your PCI burden and your risk of a data breach. The iPP350 is an easy-to-install, self-contained, countertop PIN pad payment device that plugs right into your cash register.

- USB, Serial, or Ethernet Connectivity
- EMV Ready
- Keypad
- U.S. PIN Debit
- Magnetic Swipe Reader
- Customizable Color Screen
- Manual Card Entry
- Line Item Display
- Contactless/NFC
- Google Wallet Tap to Pay
- Plug and Play Installation
- SRED Compliant

### HOW TO ORDER:

1. Choose a Shift4-certified, PTS-validated POI device with SRED as a function that best suits the merchant's needs and works with their POS.
2. Select a Shift4-approved provider on the next page to inject the Shift4 keys, then place the order.
3. Install the configured devices and contact Shift4 to go live with processing P2PE-secured payments.

For detailed device specs and additional information, please visit: [www.ingenico.us/smart-terminals/pinpads-terminals/ipp-350.html](http://www.ingenico.us/smart-terminals/pinpads-terminals/ipp-350.html)

If you have questions about any part of the process or are unsure who to order devices from, we are here to help guide you. Contact our 24/7/365 Customer Support team at [support@shift4.com](mailto:support@shift4.com) or 888.276.2108.
