

KEYPAD/MSR

Shift4 P2PE Device: ID TECH SecureKey™ M100/M130

Shift4 is proud to support P2PE with the ID TECH SecureKey™ M100 and M130. Together with our TrueTokenization® and proper implementation, P2PE can greatly reduce your PCI burden and your risk of a data breach. The M100 and M130 are PCI-certified keypads for manual card entry. The M130 also has a secure magnetic swipe reader. They are best for use in hospitality, call centers, and card-not-present environments.

- Keypad for Manual Card Entry
- Magnetic Swipe Reader (M130)
- USB Connectivity
- Powered Through USB Port
- 2-Line, 20-Character, LCD Backlit Display
- Reads 3 Tracks of Data (M130)
- Supports P2PE
- Supports Shift4's VT4® Web App
- Supports TDES and AES Encryption
- DUKPT Key Management

How to Order:

1. Choose a Shift4-certified device that best suits the merchant's needs and works with their POS.
2. Select a Shift4-approved distributor on the next page to inject the Shift4 keys. Place the order.
3. Install the configured devices and contact Shift4 to go live with processing P2PE-secured payments.

*Best Practice: Deploy an equal number of devices with each Shift4 P2PE key available for reduced risk and higher availability.

*Important: There has been some confusion around the Shift4 configuration process regarding the requirement of a PIN encryption key, even if debit is not being utilized. Shift4 recommends that each Shift4 device being shipped automatically include a PIN encryption key along with the Shift4 P2PE key. If this is not included, there is a possibility that the devices will have to be returned for a PIN injection to utilize EMV functionality with Shift4. It is in the merchant's best interest to have an EMV PIN encryption key injected with the Shift4 P2PE key to avoid having to send the devices back and ensure they have the highest available liability protection in the eventual case of Chip+PIN.

If you have questions about any part of the process or are unsure who to order devices from, we are here to help guide you. Contact our 24/7/365 Customer Support team at support@shift4.com or **702.597.2480 (option 2)**.
