Choosing the Right Accessories for VT4®

Consumers want faster checkouts and more convenient ways to pay. You need an advanced payment solution that not only provides these benefits, but also meets your business needs and secures cardholder data. VT4® is a P2PE-capable, EMV ready, mobile point-of-sale solution (mPOS) that integrates to peripheral devices from the industry's leading manufacturers to provide you with the speed, security, and reliability your business needs while offering the latest in payment technology.

With VT4, you can order any of the accessories listed in this brochure to create your own custom mPOS setup, or you can avoid the guesswork by selecting one of our exclusive hardware bundles.

About VT4® Hardware Bundles

The VT4 hardware bundles have been designed to accommodate the mobile payment needs of merchants large and small, from any industry, supporting as many users, devices, and revenue centers as needed. Shift4's VT4 with *True P2PE*® and *TrueTokenization*® technologies, combined with ID TECH and Ingenico devices, can help reduce your PCI burden, greatly enhance your security, and provide reliable transaction processing power.

In addition to our exclusive bundles, you are able to further customize your mPOS solution by selecting hardware from our À La Carte section – add an extra iPad enclosure for future users or another payment device to accommodate temporary increases in transaction volume.

To start creating your custom VT4 mPOS solution, contact:

POCKET BUNDLE

The Lightweight mPOS to Process Payments Anytime, Anywhere

The VT4 Pocket Bundle provides the reliability and functionality needed by unique mobile payment environments, from a sold-out stadium to a booth at the county fair. With a payment device and handheld Bluetooth printer, you are able to offer customers printed receipts while keeping your space requirements to a minimum. And, you can accept all the latest payment methods, including EMV and mobile wallets – even when your staff is on the go.

1	ID TECH iMag Pro II Mobile MagStripe* †
1	Ingenico iSMP Companion U.S. EMV Device* †
1	Star Micronics SM-S220i Portable Bluetooth Receipt Printer

*IMPORTANT

When ordering the Pocket Bundle, you must also order hardware configuration for each payment device. For the iMag Pro II, use SKU SIG-IMAGS4CONFIG and P2PE key injection SKUs SIG-IMAGS4KEYA or SIG-IMAGS4KEYB. For the iSMP Companion, use SKU SIG-ICMPISMP4CONF and P2PE key injection SKUs SIG-ICMPISMP4KEYA or SIG-ICMPISMP4KEYB.

†NOTE

If ordering a single bundle, Shift4 recommends purchasing additional payment devices from our À La Carte section with alternate P2PE keys as backup.

BEST PRACTICE

For reduced risk and higher availability of payment devices, deploy an equal number of devices with each P2PE key available for that device.

STAND BUNDLE

A Kiosk-Style Solution for Busy Merchants

With VT4's Stand Bundle, your customers are able to place, customize, and pay for an order while at the table, outside at the pool, or waiting for their car at the valet. This bundle includes a swipe device and tamper-proof enclosure so you are able to offer continual service.

1	ID TECH iMag Pro II Mobile MagStripe Reader**†
1	Archelon CAS iPad Enclosure & Mounting Kit (Tablet Not Included)†
1	Archelon ID TECH iMag Pro II Enclosure & Adapter Kit

*IMPORTANT

When ordering the Stand Bundle, you must also order device configuration for each iMag Pro II using SKU SIG-IMAGS4CONFIG and P2PE key injection using SKUs SIG-IMAGS4KEYA or SIG-IMAGS4KEYB.

†NOTE

If ordering a single bundle, Shift4 recommends purchasing additional payment devices from our À La Carte section with alternate P2PE keys as backup.

BEST PRACTICE

For reduced risk and higher availability of payment devices, deploy an equal number of devices with each P2PE key available for that device.

COUNTERTOP BUNDLE

The Countertop Complement to Your Traditional POS

Whether you are a retailer looking to add an additional terminal during the holiday season or a local restaurant about to open your doors, the VT4 Countertop Bundle allows you to deploy VT4 either as a standalone, full-service terminal or as a complement to existing point-of-sale (POS) terminals. This bundle includes everything you need to quickly and securely accept multiple forms of tender – including EMV and mobile wallets – print receipts, and more.

1	ID TECH iMag Pro II Mobile MagStripe Reader*†
1	Ingenico iPP350 U.S. EMV Device*†
1	Motorola CS4070 Companion Laser Barcode Scanner
1	Star Micronics TSP654ii Countertop Bluetooth Receipt Printer
1	Star Micronics SMD2-1214 Cash Drawer
1	Archelon CAS iPad Enclosure & Mounting Kit (Tablet Not Included)
1	Archelon ID TECH iMag Pro II Enclosure & Adapter Kit

*IMPORTANT

When ordering the Countertop Bundle, you must also order hardware configuration for each payment device. For the iMag Pro II, use SKU SIG-IMAGS4CONFIG and P2PE key injection SKUs SIG-IMAGS4KEYA or SIG-IMAGS4KEYB. For the iPP350, use SKU SIG-INGENIPPS4CONF and P2PE key injection SKUs SIG-INGENIPPS4KEYA or SIG-INGENIPPS4KEYB.

†NOTE

If ordering a single bundle, Shift4 recommends purchasing additional payment devices from our À La Carte section with alternate P2PE keys as backup.

BEST PRACTICE

For reduced risk and higher availability of payment devices, deploy an equal number of devices with each P2PE key available for that device.

ANYWHERE BUNDLE

A Perfect Blend of Mobile Payment Technologies

A mobile payment setup that allows you to seamlessly process payments from any location, the VT4 Anywhere Bundle is the perfect blend of a countertop mPOS terminal and a compact mPOS. With both a portable Bluetooth printer and a full-size receipt printer, two P2PE-enabled swipe devices, an EMV-capable device, and a cash drawer, this line-busting bundle can be used at a concert concession stand or during peak meal times in a café or corporate cafeteria.

2	ID TECH iMag Pro II Mobile MagStripe Reader* †
1	Ingenico iPP350 U.S. EMV Device* †
1	Motorola CS4070 Companion Laser Barcode Scanner
1	Star Micronics TSP654ii Countertop Bluetooth Receipt Printer
1	Star Micronics SM-S220i Portable Bluetooth Receipt Printer
1	Star Micronics SMD2-1214 Cash Drawer
1	Archelon CAS iPad Enclosure & Mounting Kit (Tablet Not Included)
1	Archelon ID TECH iMag Pro II Enclosure & Adapter Kit

*IMPORTANT

When ordering the Anywhere Bundle, you must also order hardware configuration for each payment device. For the iMag Pro II, use SKU SIG-IMAGS4CONFIG and P2PE key injection SKUs SIG-IMAGS4KEYA or SIG-IMAGS4KEYB. For the iPP350, use SKU SIG-INGENIPPS4CONF and P2PE key injection SKUs SIG-INGENIPPS4KEYA or SIG-INGENIPPS4KEYB.

†NOTE

If ordering a single bundle, Shift4 recommends purchasing additional payment devices from our À La Carte section with alternate P2PE keys as backup.

BEST PRACTICE

For reduced risk and higher availability of payment devices, deploy an equal number of devices with each P2PE key available for that device.

À LA CARTE DEVICES

Build Your Own Bundle or Add to an Existing Bundle

With our integrations to a variety of peripheral devices, you are able to choose the accessories that best fit the unique needs of your business. You can order as many devices as needed to support unlimited revenue centers, users, and devices. So, whether you need to process cash-only payments for your food truck or member account transactions on the golf course, VT4 has your payments covered.
